

MINORITY OFFERS WAY OF SETTLING DILEMMA

GIVE RIGHT OF WAY IF CONDITIONS OF TEST OF FACTORY ARE ACCEPTED

Would Settle Question of Plant's Capacity by Season's Run Under Commission's Management

An offer looking to the settlement of the internal troubles of the Southern California Sugar Co. was made today by the minority directors, James Irvine, James McFadden, A. J. Crookshank and R. T. Harris. Nearly four weeks ago there was a stockholders meeting at which a committee of four, C. A. Riggs, S. H. Finley, J. A. Turner and D. H. Thomas, was appointed to assist in securing the disposal of the sewage of the plant. So far as can be learned, that committee has not been successful in reaching a final determination. The offer today is to provide for the disposal of the sewage, under conditions laid out in the offer, which is herewith printed in full.

At the meeting of the stockholders in March the Case, Hinz Co. made an offer to put up its stock as a guarantee that the factory would be made good should it be proven in a season's run that it is not up to the contract capacity, provided the stock was released from attachment in the Hadsell suit, and provided there was no change in the management.

The offer made today virtually accepts the proposal of the Case, Hinz Co. to put up its stock as an assurance for a test, but provides that the test shall be made by a commission of disinterested parties.

The offer made by Irvine, McFadden, Crookshank and Harris is remarkable for the reason that it puts forward a ground of compromise which if accepted will settle the drainage question and at the same time settle the question as to whether or not the plant is a plant of 600-ton capacity.

The offer is addressed to the committee, Riggs, Finley, Turner and Thomas. It follows in full:

Gentlemen:—Your committee having been appointed for the purpose of aiding to secure a right-of-way over which there could be constructed a pipe line for conveying the sewage and waste water from the factory of said company to the Pacific ocean, or to some other point where such sewage or waste water could be disposed of, the undersigned, four members of the Board of Directors of said company, herewith submit to you for your consideration the following proposition, to-wit:

If the firm of Case, Hinz & Co., contractors who built the plant for said corporation, will assign and place in escrow, subject to the attachment in the Hadsell suit, all the shares of stock issued to Case, Hinz & Company as part payment of the construction price paid to them for the construction of the plant of the said company, to the Orange County Title Company, as trustee, and enter into a contract to carry out said trust in substance as follows, to-wit:

That said Case, Hinz & Company will operate said plant for the Sugar Company during the coming campaign of 1910 without the installation of additional machinery, under the direction of the Board of Directors of said company, in an economical and business like manner; since an average of six hundred tons of sugar beets per day of twenty-four hours and manufacture the juices therefrom into sugar during the entire campaign, the percentage of extraction of sugar from such juices to equal the percentage of extraction obtained by any of the other sugar factories from the beets from Orange county of like percent-

age, and the proof of such extraction to be the number of pounds of granulated sugar (standard) made and sacked during the campaign of 1910; the time lost in the operation of the plant during such campaign through breakage of machinery through no fault of operation or faulty construction on the part of Case, Hinz & Company in the construction or operation of the said plant to be deducted from the time consumed in the campaign of 1910; during such campaign, there shall be employed in the factory by the undersigned a chemist who shall at all times have free access to the laboratory and all records kept therein, and also to have equal facilities for obtaining information in regard to the operation of the factory with the chemist employed and in charge. Also to employ an expert, who shall have full authority with the superintendent in charge so far as the same relates to obtaining information as to the management and operation of the factory and the work done by the said superintendent, but neither of said employees of the undersigned interfere or advise in the work of the laboratory or the operation of the factory. At the end of the campaign, if the said factory shall have yielded an average of six hundred (600) tons for each day of twenty-four (24) hours during the entire campaign, and economically extracted the percentage of sugar therefrom as provided herein, as set forth in the contract under which the said plant was constructed, then the compensation of said superintendent-expert and of such chemist shall be paid by the undersigned, but if not so found according to the said contract, then such compensation shall be paid by the firm of Case, Hinz & Company.

That a committee shall be appointed for us and for the stockholders of the said Sugar Company, the undersigned to select two members thereof; Case, Hinz & Company to select two members thereof, and the fifth member thereof to be selected by the presiding Judge of the Superior court of Los Angeles county, California, who shall have full power to determine the matters herein. If said factory is found to be not according to said contract under which it was constructed, then the said committee shall employ a competent sugar factory engineering expert, who shall have the endorsement as to his qualifications of the leading sugar factory builders, to-wit: The Dyer Company and the Kilby Manufacturing Company, both of Cleveland, Ohio; said expert to make a thorough and careful examination of said plant, and report as to the changes and additions needed in machinery and construction, with the full cost of making the same. The said committee shall then demand of Case, Hinz & Company the payment of such sum of money to them, and if such amount is paid in money within thirty (30) days from the date of such demand, then to instruct the Orange Title Company, trustee, to surrender to Case, Hinz & Company the shares of stock so assigned to it as above stated; but if Case, Hinz & Company do not pay the sum as stated, then the said committee shall proceed in the name of the said trustee to sell said shares of stock, or a sufficient number of them to procure the sum of money so found necessary to make

PICKED UP UNCONSCIOUS RESULT OF HORSE'S RUNAWAY

George W. Ford, a well known pioneer rancher and stockman, was thrown from his buggy at the corner of Ross and Washington last night, and received injuries that rendered him unconscious for about an hour. Though suffering a long scalp wound and severe bruises about the head, no bones were broken.

Mr. Ford's horse ran away as he was going home last night about 6 o'clock, and in whirling the corner a short distance from the Ford home on Ross street, Ford was thrown out. He was found unconscious down in the dust, his overcoat having fallen over his head. It is thought that had he not been found by passers-by very quickly, he might have been smothered.

Ford was taken home on a stretcher, and physicians made an examination. They found that while there was an ugly cut across the side of the head, the skull was not broken.

ENGINEER OF MINE KILLED—HUNDREDS NARROWLY ESCAPE

BUTTE, April 6.—The Never-sweat mine, where six hundred men are employed, will be out of commission for several weeks owing to an accident in which Engineer Elmer L. McNabb lost his life. The accident occurred after three hundred men of the night shift had been lowered into the mine. The hoisting reel became unmanageable, and decapitated McNabb. The cage dropped two thousand feet to the bottom of the shaft. If the accident had occurred three minutes earlier the entire night shift would have been killed. The damage is estimated at \$100,000.

EMIL SIEDEL SOCIALIST MAYOR

Milwaukee's New Civic Head Promises Many Reforms in Administration

MILWAUKEE, April 6.—Mayor Elect Emil Seidel, the first Socialist mayor of any large city today called a meeting of Socialists to outline administration plans. He assured them he would attempt nothing revolutionary. Four other Socialists have been elected aldermen.

Among other things Seidel has pledged himself to introduce, are the initiative and referendum; municipal ownership; municipal penny lunches; three-cent car fare; seats for all passengers on street cars; an eight hour work day; a municipal employment bureau; standard weight for bread; to remit the water tax to washerwomen supporting families.

The eyes of every city in the country will turn to Milwaukee during Seidel's administration. The mayor-elect predicts that the success of his administration will mean Socialist successes in other cities.

CAPT. CONBOY GETS SENTENCE TODAY

Given Seven Years in Pen for Killing Bernard Lagan

SAN FRANCISCO, April 6.—Michael J. Conboy, the former police captain, was sentenced today to serve seven years in the penitentiary, for killing Bernard Lagan.

Conboy, while intoxicated, shot Lagan. Lagan was trying to help Conboy to his feet after the officer fell down. The jury in a second trial found Conboy guilty of manslaughter.

JOHN BOOSE STARTS TO HIS OLD HOME

John Boose, a fruit grower of East Seventeenth street, started today on a trip to Germany. He will spend a week in Minnesota, two weeks in Philadelphia, and will sail for Germany about May 1. He will visit his old home in Waldhausen, Germany, where he was born. He left his native country thirty-three years ago at the age of eighteen. He will be gone about three months.

WEEDS! WEEDS!

The annual meeting of the Civic Association will be held at the City Hall, Friday, April 8, at 7:30 p.m. Election of officers for the coming season, and adoption of Weed Day principal topics. All who are interested in a clean city are requested to attend.

TAFT WILL KEEP OUT OF INDIANA

Cancels Speech Engagement; Beveridge's Endorsement May be Cause

WASHINGTON, April 6.—President Taft today cancelled his engagements to speak in Indianapolis next May. It was stated at the White House that the president will probably find it impossible to visit the Middle West. His decision is believed here to mean that he is determined to leave the troubled Indiana political situation alone. The decision is believed to be the result of the endorsement of Senator Beveridge by the Republican state convention yesterday. Beveridge voted against the Payne-Aldrich tariff measure.

VATICAN WEAKENED BY ROOSEVELT AFFAIR

LONDON, April 6.—The London Telegraph's Rome correspondent, in a lengthy cable, concerning the Vatican incident, says:

"The affair has added strength to the campaign against the Vatican at a time when the Holy See needs all the strength it can muster to combat its enemies. The general opinion is that Cardinal Merry Del Val's reputation as a diplomat has been shattered. Many gray heads at the Vatican are shaking sadly these days, wishing for a return of the days of Pope Leo's reign, when the game of diplomacy was played by men with brains, not by amateurs."

\$50,000 DEFICIT ON BAEHR'S BOOKS

Dead Ex-Treasurer of Kansas City May Have Been a Defaulter

KANSAS CITY, April 6.—An investigation of the report that Ex-City Treasurer William Baehr was \$50,000 short in his accounts was started today by his former bondsmen. Baehr's dead body was found several days ago and since then experts have been checking his books. His estate is ample to cover the reported loss.

FUNERAL TODAY OF THE "GRAND OLD MAN OF OREGON"

PORTLAND, April 6.—The funeral of George H. Williams, a former member of President Grant's cabinet, and the "Grand Old Man of Oregon," was held today from Trinity church. Among the honorary pall bearers were Governor Benson and Mayor Simon. The body was interred in River View cemetery.

How West Has Developed

Five years ago it was freely predicted that land values in the West had reached their height, but they are 20 to 40 per cent higher now than then. The families of the first comers are grown. The second generation has come to the fore and is taking part in the business of the communities. They have grown up with the country and know what it can produce and just how valuable it is for the purpose of production and for a home.—C. M. Harger in the Atlantic Magazine.

BLACK SOLDIERS ARE FOUND GUILTY

Charges Against Brownsville Companies Sustained by Military Court

WASHINGTON, April 6.—A military court of inquiry which has been investigating the "shooting up" of Brownsville, Texas, by the regular soldiers of the Twenty-fifth infantry guilty, sustaining the charges made against them by the mayor and citizens of Brownsville.

The affair occurred during Roosevelt's administration. The three companies accused were suspended. The court found but fourteen of these soldiers are eligible for re-enlistment.

ECUADOR AND PERU ARE ON VERGE OF WAR

United States May Offer to Arbitrate Difficulties of Two Countries

PERU READY TO BREAK COLOMBIAN RELATIONS

Trouble is Over Boundary Lines—Buenos Ayres May Lose Peace Conference

WASHINGTON, April 6.—The state department, with the Latin-American diplomatic body, is on tiptoe today awaiting developments in the extremely critical political situation between Peru and Ecuador.

War between the two republics is almost a certainty unless the United States interferes. It is rumored here that unless either country requests American interference, Secretary Knox will offer arbitration. The Pan-American Peace Conference, scheduled for Buenos Ayres next July, may be abandoned as a result of the present strained relations.

It is also reported in the dispatches that Peru is planning to break off diplomatic relations with Colombia because Colombia is reported to have offered to aid Ecuador in the event of war.

The cause of the dispute is the boundary question long standing. The last time it arose, the matter was placed in the hands of King Alfonso for settlement, which was unsatisfactory.

OVERACKER TRIAL MONDAY

Much Interest in Outcome—What Will Defense in the Case be?

On next Monday the trial of S. H. Overacker on a charge of murdering G. A. Winn, will commence in the Superior court of this county. This trial will be of unusual interest. At the present time there is considerable conjecture as to the outcome of the trial, for the reason that it involves a number of unknown quantities.

What will the defense be—insanity, self defense, what?

The bare facts of the shooting as they first appeared looked bad for Overacker. From a distance of thirty yards, he fired at Winn with a rifle, and as Winn ran from him he fired two more shots and killed him.

Since then rumors of the things done and said in the neighborhood quarrels of Overacker and Winn, have caused many to say that Overacker's chances may not be as dark as they seemed at first. Winn was a powerful man; Overacker, aged, almost deaf and far from vigorous. That Winn tantalized Overacker by calling him names and threatening him, that Overacker was at times almost irresponsible, are things reported that may be used as groundwork for the defense.

Then, too, the Overacker side of the quarrels and the shooting has never been heard nor made public.

Attorney W. H. Thomas, of the law firm of Langley & Thomas, is to have charge of Overacker's defense. Attorney Thomas is a new man in the county, and attorneys are anxious to see what kind of a "scrap" he will put up. Thomas has been in court a number of times, and he has displayed both vigor and ability. He has been giving the Overacker case much study and attention. Attorneys Montgomery & Tarver are to appear with the defense.

FRANK H. MOUSER IS HERE ON A HAND- SHAKING EXPEDITION

Frank H. Mouser of Los Angeles, candidate for the Republican nomination for secretary of state, arrived in Santa Ana today for two or three days' hand-shaking. Mouser is out on a tour all his own, and is making friends as fast as time will let him. He has been in San Diego for several days, and says the situation looks good to him.

Mouser is well known in this county, where he has many warm friends. The office for which he is running is the second in importance in the state.

DYNAMITE BOMBS FOUND NEAR BANK

McKee's Bank Robbery Ends in the Arrest of Five Suspects

PITTSBURG, April 6.—Five suspects are under arrest following the McKee's Rocks bank robbery last night, in which two men were killed and two wounded. The police found two dynamite bombs, each weighing ten pounds, hidden near the bank. Hundreds of foreign depositors swarmed the bank today, apprehensive of their savings. The bank officials stated that less than \$400 was stolen.

ROOSEVELTS OVER HONEY MOON WAY

Will Travel Over Bridal Trip Route of Twenty-four Years Ago

ROME, April 6.—Col. Roosevelt and Mrs. Roosevelt will retrace the honeymoon route they covered twenty-four years ago. They will go alone, and for one week lose the crowd of admirers that has thronged their footsteps since they reached civilization. Col. Roosevelt today requested the correspondents who are accompanying him to withdraw for a week, and rejoin him at Genoa on April 18. The Colonel and his wife will journey slowly along the Mediterranean from Spezia to Genoa. Even Kermit and Ethel Roosevelt will not be permitted to accompany them. Roosevelt leaves for Rome tonight, and will be out of the public eye for a week.

Col. Roosevelt will meet ex-Forester Pinchot in Genoa. He stated they would say nothing that the correspondents could secure were they with the party, but that their entire conference would be private.

Col. Roosevelt will meet ex-Forester Pinchot in Genoa. He stated they would say nothing that the correspondents could secure were they with the party, but that their entire conference would be private.

Starts on Journey
Colonel Roosevelt departed tonight with Mrs. Roosevelt, for an automobile trip along the coast towards Genoa. They will spend several days with Mrs. Roosevelt's sister, Miss Carew, at her villa on the coast. Roosevelt refused to comment further on the Vatican incident and declared the hope that it would be settled before he again gets in reach of the telegraph.

WASHINGTON, April 6.—The house this afternoon passed the bill extending the letter franking privileges to Theodore Roosevelt by a vote of 120 to 26. McCall of Massachusetts was the only Republican voting against the measure.

Father Hammon's Remarks

WASHINGTON, April 6.—"Roosevelt, the politician, has met his Waterloo," declared Father Eugene Hanlon, pastor of St. Martin's Catholic church. "Like a bull in a china shop he attempted to jump into the Vatican and override the etiquette of the most august court in the world. The Vatican is not assisting in political exploitations."

After reviewing the Vatican incident, Father Hanlon said:

"Roosevelt in his usual manner now comes forth denouncing the Methodist ministers who came to his support. Why? So that American Catholics will be appeased. But this will not suffice Roosevelt, the greatest press agent the world has ever known. He can expect little from American Catholics in the future."

HAS INVITED 100 TO THE BARBECUE

WILL FORM NEW DRAINAGE DISTRICT AT OLD NEWPORT

Orange county is to have a new drainage district, if the plans of a large number of Old Newport ranchers are carried out.

These ranchers propose forming a district to drain the 300 acres that lie between the western edge of the Delhi Drainage District and the Santa Ana river, the outlet to be into the big ditch of the Talbert Drainage District.

This district will render the lands drained far more valuable than now. The lands are among the richest in the county.

The petition was almost ready for presentation to the Board of Supervisors this morning but owing to delays concerning boundaries, the petition was held out to be presented later.

FRESNO BEGINS RAISIN DAY WORLD CAMPAIGN

FRESNO, April 5.—Fresno began its second annual raisin day campaign yesterday. The aim is to make April 30, Raisin Day, a day of international observance; also to make raisin bread a new delicacy for the international palate.

A hundred determined boosters met yesterday afternoon to celebrate the opening of raisin day headquarters and to sample raisin bread.

This morning a stream of raisins will begin pouring out of Fresno. Its course will be around the world.

TALKED OVER SCHOOL DAYS

Club of Former Schoolmates
and Pioneers of Garden
Grove Meet

GARDEN GROVE, April 5.—The Auld Lang Syne Club met at the school hall last Friday evening. The old time school days were recalled when a program was rendered by the former school mates. A paper was read by Dr. Hill of Long Beach, entitled "Old Time School Days;" a paper was read by Ed. Chaffee, one that was written in their school days; a piano solo by Mrs. Emma Wassum; remarks by Prof. B. F. Beswick; Horace C. Head and Dr. H. W. Head, all on the old times; an old time song, entitled "Under the Old Apple Tree"—these were on the program. Refreshments were served, consisting of sandwiches, salad, cakes and coffee. Those present from out of town were Dr. Head, Miss Percy Head, H. C. Head, Mr. and Mr. Wassum and Mr. and Mrs. B. F. Beswick, all of Santa Ana; Dr. and Mrs. Hill of Long Beach. About twenty-five were present. The evening ended by singing "Auld Lang Syne."

A surprise was given on Miss Elva Devaul last Friday evening. About 30 of her friends gathered at her home and spent the evening pleasantly in music and games. Refreshments of cake and lemonade were served.

The Garden Grove Improvement Association will have a special business meeting next Friday evening at the Y.M.C.A. hall.

Teaching Common Sense

California Cultivator: We have received from State Superintendent of Schools Hyatt a leaflet in which he refers to the custom of giving expensive gifts to graduates of public schools at the time of commencement exercises. Regarding its objectionable features because of poor parents being unable to give as elaborate gifts as the more well to do, he says: "Hell hath no torment like the feelings of a sensitive child who is publicly slighted before his mates—whose clothes are poorer, whose flowers are cheaper, whose gifts are conspicuous only by their absence."

"Those cuts are deep. They leave painful, poisoned wounds that are felt for fifty years or more. True, nothing of this shows out at the public function, all so gay and joyous; but it is true, nevertheless. It is a cruel fact."

It is to be regarded as a humane and patriotic thing for high school officials of this state to do all they can in the years of the future to obscure the pecuniary inequalities of their students, and especially to prevent these inequalities from showing forth to the assembled world on graduation night."

In addition we believe it is proper to make a further suggestion in the matter of dress of pupils in public schools. If a canvas could be made of those who leave school before graduation, we are of the opinion that it would appear that many do so because they cannot dress as elaborately as others in the school, and as a consequence they drop out into some position where their poorer dress will be less apparent. We know of cases in city schools where children from wealthy homes attend school attired in expensive gowns, with shoes, gloves and hats to match each gown. Imagine a girl from a laborer's home, barely able to supply herself with a single wash dress which is becoming, being forced to compare herself with these!

We heard a suggestion made a few days ago in favor of a uniformity of dress in public schools to be enforced by enactment of boards of education or who ever may have power, dress to be uniform in make and material, and in any case to be simple and as becoming as possible. We believe this would advance the cause of education and save much pain.

Americans Fighting in Nicaragua

The fact that many Americans now are fighting in the Estrada army in Nicaragua makes timely the reminiscences of General James Carson Jamison, a fruit farmer near Guthrie, Okla., who was one of the famous filibuster Walker's men in 1856-7. General Jamison was captain of one of Walker's companies and later became adjutant general of Oklahoma. He is in his eightieth year, but his recollection of the stirring events when he fought with General Walker in the Nicaraguan campaign is vivid, as shown in his book, "With Walker in Nicaragua," recently published. According to General Jamison, the real aim of Walker was to erect an empire in Central America, combining all the five republics, with himself as the first consul of Napoleon of the enterprise. The veteran thinks Walker, who was a native of Nashville, Tenn., might have achieved his dream had he not made war on Honduras somewhat unwisely, the

SEWER BONDS WILL GO OVER

Present Orange Trustees Will
Not Act on the Petitions
for Bonds

Orange News: The sewer bond petitions will not be acted upon by the present board of trustees. Members of the board made that plain at a meeting last evening at which they were addressed by the sewer committee of the Chamber of Commerce. The incoming board, which will meet for business April 18th, will have the sewer question on the list in all its virgin husks. Because the present board declined with finality to call an election, or to in any way put their successors under the necessity of carrying out a sewer program, and because

the Chamber of Commerce committee desired that some action be taken before the dissolution of the board, there was a clash and caustic words passed between the conferees.

The point of difference lay in the amount of the bond issue. The board members, individually expressed the opinion that \$16,000 was too little to complete the sewer work. The Chamber of Commerce committee insisted that it was sufficient for all purposes. Ditch digging and the relative ability of engineers entered the discussion, which waxed warmer and warmer until at length the trustees stated emphatically that they wouldn't have anything to do with the plan, because it logically belonged to the new board.

The franchise committee asked for a week before reporting the telephone franchise ordinance and were granted their time.

RESCUED OFF ROCKY SHORE

Floated Helpless for Two Days
—Fishermen Found Him

Los Angeles Examiner. With his mind vacant, and his countenance a mirror of the suffering he has under went for two days and three nights in the frail 18 foot launch Painter, Richard England was brought to Long Beach last night by Matt Walsh, superintendent of the San Pedro Transportation Company, and W. A. Brunnick, after being rescued eleven miles south of Newport by two fishermen. When taken off the launch he was delirious.

He was led like a child, was unable to talk, and his mind seemed gone. Walsh and Brunnick took him to San Pedro and thence to Long Beach on the car they found. Dr. J. A. Collier of Los Angeles, gave England an opiate which temporarily relieved his suffering.

Saturday evening England took the launch Painter from the Brundage Paint Company's dock at Terminal, and sailed out quite a distance before he noticed his gasoline supply was short. His engine soon failed to work and he was hopelessly adrift. He had no food nor water aboard, and from Saturday night at 9 o'clock until yesterday morning at 9 o'clock he was at the mercy of the elements.

When found he looked as if he had lost 25 pounds in weight. His clothing was soaked, and his whole appearance indicated that he had suffered greatly.

Thinking that England might have been picked up by some craft on Sunday, none of his friends looked for him that day, but on Monday Matt Walsh and Clarence Brundage took the Orient up the coast, and instituted a thorough search. Yesterday afternoon they learned that he had been rescued at Newport.

England is an expert rigger, employed by the Brundage Paint Company.

MICHIGAN "DRYS" SHUT UP 272 SALOONS YESTERDAY

DETROIT, April 5.—Full election returns from sixty-three counties in Michigan show that twelve additional counties have joined the dry column. This makes two-thirds of the counties in the state "dry," forty-two having declared for prohibition and twenty-one going "wet."

Saloons Put Out of Business
DETROIT, April 5.—The Anti-Saloon League people lost two counties to the "wets" yesterday but won more than a score to the dry column. They put out of business 272 saloons and six breweries. The "drys" suffered one overwhelming defeat, but it was one which they expected. In Garud Rapids they were shown under by a majority of about 8000. The remainder of the county was pretty evenly divided.

MOLDED SPINACH (Mary J. Lincoln)

Remove roots and decayed leaves, wash in several waters until no grit remains. Boil in water to nearly cover until tender. Drain, rinse in cold water, drain again, chop very fine, reheat the butter, season with salt and pepper and pack in small cups. Turn out the garnish with sifted yolk of egg.

SCALLOPED TOMATOES

Drain a half cup of tomatoes from some of their liquor and season with salt, pepper, a few drops of onion juice and one teaspoonful of sugar. Cover the bottom of a small buttered baking dish with buttered, cracker crumbs, cover with tomatoes and sprinkle the top thickly with buttered crumbs. Bake in a hot oven. Buttered cracker crumbs are made by simply rolling common crackers with a rolling pin and allowing one-third cupful of melted butter to each cupful of crumbs. This recipe takes about one and one-third cupfuls of crumbs.

THE "FAUX PAS"

"George, do you shave yourself?"
"Yes," he replied.
"I thought so," she said, "Your face is the roughest I ever—"
Then she stopped, but it was too late, and he went away with a cold, heavy lump in his breast.

F. W. RICHARDSON FOR STATE PRINTER

Consents to Run After Strong
Solicitation From Editors
of the State

BERKELEY April 6.—Fred W. Richardson, editor of the Daily Gazette and president of the California Press Association, has found it impossible to escape the demand that he should run for superintendent of state printing, and today consented to become a candidate for the Republican nomination.

The press of the state has made practically a unanimous demand upon him, and although he has repeatedly said that he did not want to run for governor, or any other office, still the pressure is so strong that he cannot decline. He has conducted a newspaper and job printing plant for many years and is thoroughly qualified to manage the state printing office. His Berkeley printing office is one of the model plants of the state and his attention to detail and executive force is shown in every department.

In a statement today Richardson says:

"Over one hundred editors throughout the state have requested me to become a candidate for the Republican nomination for superintendent of state printing. Many citizens in different counties have joined in the request. The Lincoln-Roosevelt Republican League has, without solicitation or even suggestion from me, tendered me its endorsement. The office is seeking me and I feel it my duty to accept the call.

"Personally, office seeking is not to my liking and I have never been a candidate for office either at a primary or at an election, and would prefer to remain a humble editor.

"I enter the contest without a pledge or promise to anyone save my promise to the people that if elected I will administer the office efficiently, honestly and economically and so as to bring credit to myself and my supporters.

"I will have no word of criticism to offer against others who may seek this office, and will rely solely upon my merits to win, and if I am defeated I will accept the result cheerfully and philosophically."

“GETTING” AN EDUCATION

Young ladies and gentlemen and girls and boys from the kindergarten up, it will pay you better than a year's study to mind what Colonel Roosevelt says about "getting" an education. His remarks were made to an Egyptian school, but they apply alike to all, old or young, who are seeking to qualify themselves for the struggles of life.

He starts out with telling what is necessary to reach the front rank in life. Of course we can not all gain the front rank, for we are not all equal in ability, but each one has his place, some in the front and others scattered along as ability and training may fit them. It takes, however, the same amount of training and effort for one to reach his or her proper place as another, whether it be in front or rear. Let this be borne in mind while we consider what the speaker says.

He makes a statement in the outset that will prove a great disappointment to some, and will surprise others. "Mere intelligence itself," he says, "is worse than useless unless it is guided by an upright heart with strength and courage behind it. Morality, decency and clean living, courage, manliness and self-respect are more important than mental subtlety."

We are apt to imbibe the notion at school that intellect is all that is necessary to enable one who is industrious to succeed at school and in after life. True, this is not taught in our schools, and whenever the subject comes up the contrary is held. But, we imbibe the idea. This is probably due to the fact that in school the emphasis is necessarily placed on the intellect because of its work in mastering the studies that are set before us. And so we come to depend upon it as a matter of habit, and by the constant practice of this habit, it becomes projected into every activity in which we engage or to which we look forward. Doubtless our friend Mr. Roosevelt knows this from his own experience, and takes occasion to warn us against a very common mistake, with a hope of saving us from the loss of time and opportunity that a lack of such knowledge would entail.

This man Roosevelt has himself been a great success, and now stands in the foremost rank of the world's greatest men. What he says reveals to us the secret of his greatness. He has literally fought his way and many times against great odds, to the place he now occupies, and now, standing in that place, he turns and tells us how he managed it. He does not say such is the case, but we know enough that this is what it amounts to.

From his experience we learn that misguided intellect is worse than less. It is positively dangerous to be more apt to land us in jail than White House. It must be guided by an "upright heart," or it will be a hindrance rather than a help. Better mediocre with "an upright heart" than a genius with a perverse nature. Uncontrolled by a strong moral nature may succeed to a certain extent, but soon it will run up against a stone wall. It cannot compete with "moral courage and clean living." This is because the world demands of us that we possess moral courage and live clean lives. We may manage to get through school with honor, and graduate possibly at the head of the class, but when we go out into real life and begin to compete for preferment or for business, it is a different thing. Here a good reputation is our best capital, and this we cannot have for long except we be worthy of it.

PITTSBURG'S CLEAN-UP

Sixty Pittsburgh grafters rushing in to court for an immunity bath has clogged the judicial wheels and they have to stand in line like waiting for news from home at the postoffice. But absolution, being legal only, cannot wash them clean in the estimation of their neighbors, much less in their own eyes.

Referring to grafters, the evidence in the San Francisco cases was that one of them were really victims of other men's rascality. It occurred after this fashion. The political boss of the city managed to secure the elec-

tion of men of the commonest intelligence, who are in no wise up to the devious ways of bosses. If possible, he got men for these places who were securely obligated to some one whom he could control. But in any case he had men whom he could lead into some sort of trouble without its being known to them until afterward. He would find a way for them out of this by getting them in deeper, and finally he had them where he could say, "Do this, or it is the pen for you." In order to escape immediate danger the unfortunate dupe was compelled to comply even by going still further into the mazes, and finally he arrived at a point where it seemed to him that matters could not be made any worse, and kept it up. From being an honest, hard working citizen, he found himself a grafter surrounded by grafters and breathing the atmosphere of corruption from morning till night. Had he known the meaning of the first false step, he would have risen in arms against it and been saved. But good care was taken to keep him in ignorance of it until after it was too late to undo the mischief. He was the victim of "a brace game" and exactly in the position of the dupe of the confidence man.

But who was the confidence man? None other than the political boss, and a "frame-up" was arranged between him and the bribe-giver. Here we have the "higher-up," in whose interests so much has been said. With the aid of the boss, he practically forced a majority of the San Francisco council into crime. This history has probably been re-written in Pittsburgh and many other cities large and small. Wherever public affairs are run on political lines, the opportunity is there and liable to be taken advantage of.

While Roosevelt will not come home by way of California, he will do much better by delivering a course of lectures at our university. This event has been definitely determined upon between himself and his friend, Benjamin Ide Wheeler, though the date has not yet been decided upon. It is safe to say that when it happens there will be a large class in attendance.

Who'll be the man to fill the vacancy left on the Supreme court by the death of Judge Brewer? Already there are many spoken of whose friends think they are suited for the place. Of all thus far mentioned that man Hughes, while he is not the best looking, really looks the best.

POLITICAL TALK

—From the California Weekly—

And You, Too, It has been a fear that Nat. Ellery the direct primary might prove of little effect in heading off political rascality, for the reason that manipulators by urging out a multiplicity of favorite sons and other meritorious candidates might so divide the vote of the honest citizenship that a mobilized and centralized "push" vote would carry the programme ticket as certainly in a direct primary as in a convention. Evidently the political bureau of the Southern Pacific company is going to test the feasibility of that plan of defeating the popular will at this election. Every man who can get a good man's vote, and so help to divide the good men of the state into such small factions that Curry will come out in the lead, will be encouraged to enter the lists for governor. Nathaniel Ellery is the latest candidate to enter the field. He is a good fellow. He fought the cement trust. To be sure he did not whip it, but he fought it. He comes from Humboldt and might get a few hundred votes up that way that otherwise would be cast for Hiram Johnson. Two out of every three votes cast for Phil Stanton would be cast for Johnson if Anderson were not under the misapprehension that he is running, and all the votes cast for Nat Ellery would be cast for Johnson if Ellery's name were not on the direct primary ballot. Therefore all these men are virtual allies of Curry because Curry's vote is a known quantity. It constitutes the "Push" of California, and not one of them all would go to Johnson under any conceivable condition. They are all against Right Things.

The Near and It is easy to under-Narrow View estimate the influence of a small county paper. It is often greater in the little field where it circulates than is the influence of any metropolitan paper in that community. Among these smaller papers in the smaller towns of the state the Anaheim Gazette ranks well, and it generally stands for Right Things. This time it does not. It is boosting the candidacy of P. A. Stanton and, strangely enough, because he "bears scars of his fight against the machine." There have been occasions when Stanton has not acted with the Herrin "organization," as he did not at the Santa Cruz convention, but none of the knooks he ever got in any such fight ever made a scar, whereas such scars as he has received, and of which he will never rid himself, he got for fighting in the ranks of the "organization" and not against it. The reason Stanton was not made speaker of the assembly three years ago is that Bob Beardslee was and Stanton had to wait. There may have been a little something disciplinary in this and, if there was, it worked a cure, for when Stanton became speaker of the assembly of 1909 he was as obedient to the Political Bureau in the making up of his committees as Bob Beardslee had been two years before, than which Mr. Herrin would not have the assurance to ask more. But Mr. Stanton has his country residence over against Anaheim and Editor Kuchel feels called upon to sustain the ambitions of the home rather than those of a stranger, although that stranger be a bigger, a broader and a freer man. Stanton would not make a bad governor, but he would not make an

anti-machine governor. He might be more independent than Anderson or Curry, but he would not be independent of Southern Pacific control.

Is Stanton Helping Stanton's candidacy or Johnson's? dacy is confessedly an unknown quantity. The confession of Douglas White, Curry's Los Angeles manager, that Johnson will carry Los Angeles county, is being corroborated by many close observers in that county, some of whom are not affiliated with the Lincoln-Roosevelt Republican League. This paper has believed that two out of every three votes cast for Stanton would go to Johnson if Stanton were not in the race and that it is for this reason that Stanton is in the race; but it is only fair to say that many Leaguers on the ground incline to the opinion that if Stanton were out of it his vote would be divided between Curry and Anderson. If this promises to be so we may expect Stanton to get out of the race before the primaries are held. A collapse of that boom is being looked for by many. The Los Angeles Times is booming Stanton with a fine frenzy, forgetting that upon an earlier occasion it branded him as a pin-head politician and out-and-out machine tool, but other memories are better and, at the psychological moment, the deadly parallel will do its work for Stanton and the Times. Whatever limitations Phil Stanton may have he is no chump, and he is not going to officiate as lamb at any sacrificial function if he knows himself and he generally does, not even to oblige Mr. Herrin, with whom his relations are said to be very pleasant. Something will happen as soon as Stanton finds where he is "at," and he was never found to be slow but once and that was when he went to Seattle at public expense, in September, to participate in the opening of the Alaska-Yukon exposition which took place in May. That time he was marked late.

The Power in Gasoline

The power of gasoline is really marvelous. The man who has used gasoline power for years does not marvel at it as does the recent purchaser. A gallon of this liquid will easily carry five passengers ten or fifteen miles, or it will grind feed cheaper than the man with horses that need the exercise can do it. Great is gasoline.

A PUBLIC BENEFIT

Santa Ana People Greatly Interested in the Generous Offer of Dean's Drug Store

—The people have already demonstrated that they would rather trust a man who is naturally honest than one who is honest only because he had to be.

The Dean Drug Store have a firmly established reputation for square dealing and sterling honesty. When they told the people that Rexall Remedies are the purest and most dependable medicines that it is possible for modern science to produce, and that they would tell the public what each one of these 300 or more remedies contained, and that they sold Rexall Remedies on their personal guarantee that they would give entire satisfaction or they would not cost the user a single cent, they were believed.

Ever since this announcement the Dean Drug Store has been largely patronized by people buying Rexall Remedies, all of which proves that this store has the confidence of the people and that honesty is the best policy.

There is no "cure-all" among the Rexall Remedies. There are different and separate medicines, each one devised for a certain human ailment or class of ailments closely allied. For instance Rexall Dyspepsia Tablets are recommended for the positive relief of stomach irritation, indigestion, flatulency and dyspepsia. They are rich in Bismuth-Subnitrate, Pepsin and Carminatives. They are prepared by special processes which perfect and enhance the great remedial value of these well-known agents. This remedy sells for 25 cents, 50 cents, and \$1.00 per package. Every one suffering from stomach disorder should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy.

Remember, Dean's Drug Store is the only store in Santa Ana where these remedies may be obtained, and every one in need of medicine is urged to investigate and take advantage of the frank and generous manner in which they are sold.

Guild Elected Officers

At the annual meeting of the Woman's Guild of the Church of the Messiah, held Monday, the following ladies were elected to office: Mrs. Geo. Balderston, president; Mrs. Whitehead, vice president; Mrs. Arthur Johnston, secretary; Mrs. John Taylor, treasurer.

Ladies' Night

Distinctly successful was "Ladies' Night," celebrated at Elks Hall last evening with the genial Elks as hosts. The spacious hall, arranged in the similitude of a palm garden, with splendid silken flags adorning the walls, and brilliant electric lights shining through purple globes, made a charming setting for the two hundred daintily gowned women and irreproachably attired men, who, seated at dozens of small tables, enjoyed the hospitality of their hosts. During a program of unusual excellence, a buffet luncheon of chicken pates, sandwiches, olives, pickles, bisque ice cream, coffee and fancy cakes was deftly served by white aproned Elks, who seemed to the "manner born," so well did they acquit themselves in their duties. Fruit punch of delicious mixture was served throughout the evening. Following the program the hall was cleared for dancing, and to ravishing dance music played by Babize's orchestra, the guests whiled away the remaining hours of the delightful evening.

The program, which was opened by a brief, felicitously worded address by W. F. Menton, was participated in by home talent and entertainers from Los Angeles. Miss Rose Rice and Miss Emeline Petersen delighted their friends with their singing last night and were enthusiastically encored. Both were charming in their personal appearance. The Babize orchestra won scores of compliments on its splendid renditions. The choice of entertainers from the city was certainly made with wisdom, Marian Gertrude Hards, the reader, and R. G. Edinger, the singer, making especial hits. The ragtime playing of G. S. Thatcher was so good

that he was repeatedly recalled, as were the others. Little Curtney Englers, as singer, dancer and reader, is a versatile and charming child.

The program being concluded at exactly 11 o'clock, that mystic hour, so full of significance in Elksdom, A. W. Rutan responded gracefully and eloquently to the toast "To Our Absent Brothers."

One of the most notable features of last evening's affair was the unanimity with which the entire membership of the lodge worked for the pleasure of their guests, with the result that every person present enjoyed the event to the utmost. The general committee on arrangements, sub-divided into smaller committees, left out no detail of success. The committeemen were Dr. G. H. Dobson, J. Howard Turner, Marshall Keeler, W. F. Menton, J. C. Burke, T. A. Winbiger, J. I. Clark, Ike Fields, Dr. V. A. Rossiter, Sidney B. Knoph, R. R. Shafer.

The very interesting program of the evening follows:
Overture, Royal (Emil Ascher)—Babize Orchestra.

"The Kirby Wedding" (Hayden Carrutti)—Marian Gertrude Hards.
(a) "California for Mine;" (b) Selected—R. G. Edinger.

Songs (a) "Fluff De Ruff;" (b) "I've Got Rings On My Fingers;" (c) "My Pa's Richer Than Your Pa"—Little Curtney Englers.
Vocal Solo, "Villanelle" (Eva Dell Acqua)—Miss Rose Rice.

Rag-time, Select—G. S. Thatcher.
(a) "The Coon Hunt" (Evelyn Greenleaf Sutherland); (b) "Angelina Johnson" (Paul Lawrence Dunbar); (c) "The Twins" (Anon.)—Marian Gertrude Hards.

Neighbors' Club

The Neighbors met at Mrs. R. Y. Williams's on Monday afternoon with a good attendance of members. There were no guests present this time.

The ladies had a delightful hour over their fancy work and in discussing the problem of "Household Economics." Many valuable suggestions were given, and some new recipes, carried home.

Mrs. Charles Johnson rendered several beautiful solos and was enthusiastically encored.

At the close of the afternoon Mrs. Williams served dainty refreshments, assisted by Mrs. Charles Johnson.

Art Study Club

The Art Study Club met at the home of Mrs. Catland Tuesday evening. After a few items of business were discussed, the program of the evening, "Early Illustrations," was taken up.

Miss Carter gave an excellent paper on the beginning and growth of illustration as an art. The mechanical part of wood carving, etching, half tone and photogravure were described in an interesting manner. Printing gave first impetus to illustration. Photography greatly increased its usefulness by the gain in accuracy, rapidity and cheapness. The first practical use was made of illustration in the production of gift books; next came the friendly token

and later the illustration of books and papers. Harper's Magazine was the first periodical to use this art extensively, and the Bible was one of the first books printed with profuse illustrations.

Mrs. Catland took up the subject of early illustrations, showing many pictures from the periods of which she spoke. The most prominent and successful ones were Darley, Chapman, Winslow, Homer, Henry Fenn, rendered famous by his "Picturesque America" series; Thomas and Peter Moran, noted for autumnal scenes; Vedder, who illustrated the Rubyal; Walter Steinlaw, who was an expert in bank-note engraving; Edwin Abbey, illustrator of Shakespeare, and Small, Gibson and Reinhardt, whose favorite subjects are, respectively, are the New England Girl, the New York City Girl, and the Southern Girl.

Mrs. A. J. Crookshank's paper on caricature was especially interesting. While the artist in other lines reproduces in gesture the ideas of the writer or copies the scenes around him, the caricaturist "gives you human nature," and has been instrumental in producing many great reforms by revealing to the public gross iniquities through the instrumentality of his sense of humor. This requires skill and vivid imagination.

The first in this line were Hogaihe, the Cruikshanks, Benjamin Franklin, Thomas Nast, McCutcheon, Thaddeus, and Homer Davenport. The latter is planning to start a comic illustrated magazine, which, if it comes up to his ideal, will rival the famous "Puck" and "Judge."

Pink Luncheon

Mrs. George Edgar, than whom there is no more successful hostess in the city, entertained yesterday with a dainty 1 o'clock luncheon. The luncheon, served in four courses, was a family function given by Mrs. Edgar for her cousin, Mrs. Paul Shoup, and Mrs. Shoup, Sr. Other guests were Mrs. Balcom, Mrs. Ross-Lewin, Mrs. A. Vanderlip, Mrs. Clyde Horton, Mrs. C. Vanderlip, Mrs. F. Vanderlip, Miss Amelia Edgar and Miss Zoe Vanderlip.

The table decorative color scheme was of pink, lovely roses being employed to carry it out. The afternoon following the luncheon was spent socially, the Mesdames Shoup leaving later for their home in Los Angeles.

Pupils' Recital

Mrs. A. J. Padgham on Saturday afternoon last had a successful music recital in the parlors of her home, in which her piano pupils were the central figures. Probably thirty were present, the parents and friends of the students being the guests. Preceding the program Mrs. Padgham gave a talk to her pupils on musical etiquette, closing the program with the playing of a Beethoven sonata and a brief sketch of the life of the great master of music.

The recital served to show the proficiency of the pupils in the various phases of musical training and was most satisfactory in results. Those taking part in the program were Roberta Dawes, Esther Holbrook, Gertrude Utt, Orpha Holbrook, Velda Nimmo, Margaret Tingley, Laura Davis, Grace Smiley, Dorothy Dean, Ruth Andrews, Margaret Lyon, Margaret Wotton, Dorothy

Thacker, Jean Stennett, Emily West, Eva Duval.

Organized Baraca Class

Several boys of the First Presbyterian Sunday school met last evening at the home of J. G. Morrow to form a Baraca class. The following were elected as officers:

Arthur Lutz, president; Lynn Shrewsbury, vice president; Donald Smiley, secretary; Erskine Gail, treasurer. Committees will be appointed at the next meeting.

Those present were the officers elect, Halsey Lamme, Arthur Anderson of the new class, and Harry Warne from the Baraca class of the Methodist church, South.

Needlework Party

Mesdames John Wehrly and W. B. Snow yesterday afternoon entertained about thirty ladies at a charming needlework party. The color scheme of house decorations was white, pink and green, delicate white blossoms, pink roses and ferns uniting in result. There were other diversions besides the sprightly chat over the pretty needlework, the hostesses offering "nuts to crack" as an amusement that taxed the wits of the ladies. The nuts to be cracked were charades, each presented by two ladies, and many ingenious versions of words suitable for charades were given.

Musical numbers were given by Mrs. Winbiger, Mrs. S. M. Davis and Mrs. DeLong. Patrons for the delicious refreshments that were served on small tables, were secured by a sort of authors guessing contest. Each lady drew a slip on which was written the title of a book. The different tables were marked with the name of an author, and the puzzle was to find the table labeled with the name of the author of the book whose title was on the slip. The efforts to match books and authors proved very amusing.

Morris-Morrison

On Tuesday afternoon, April 5th, occurred the marriage of Miss Minnie Morrison of this city and Mr. Andrew Morris of Beatrice, Neb. They were married at the home of Rev. James Butler Fox of the Grand Avenue Baptist church, San Diego, Cal. This will come as a surprise to the many friends of the bride. They will be at home to their friends after April 15th at 1502 West Third street.

Mrs. Morris is a well known worker in the First Baptist church, and her home has been in the Pacific Electric tract.

PERSONALS

Miss Mary Wilcox of Burlington, Iowa, spent a few days last week at the home of Mrs. George C. Roy. Miss Wilcox is an old time friend of Mrs. Margaret E. Nealley, and took the long trip from Iowa on purpose to see her.

Mr. and Mrs. Sam Dungan of Laguna Beach entertained Mr. and Mrs. Will Scammon of Santa Ana on Saturday and Sunday, taking them down to the beach and returning them to Santa Ana in their automobile. The Dungan grounds are like a beautiful flower garden.

Mrs. Nina Powell Udall of Tacoma, Wash., is visiting Mrs. Elizabeth Dripps for this week. Mrs. Udall came south from Puget Sound with an excursion party that arrived in Los Angeles last week.

Mr. and Mrs. Geo. S. Briggs were city visitors today.

Miss Mary E. Giffin is expecting old friends, Mrs. and Miss Waters, to arrive here this evening. They have been spending the past two years in Colorado Springs, Colo., and will remain here for a month before returning to their home in the Middle West.

Mrs. Kate Felton went to the city this morning for a short stay with her sister.

Mrs. Margaret E. Nealley and Mrs. E. M. Nealley spent the day in Long Beach with their friend, Miss Wilcox, of Burlington, Iowa.

Mrs. Andrew Getty spent today in the city.

Mrs. H. C. Humphrey and her daughter, Mrs. Tradewell, were all day visitors in Los Angeles.

Mrs. Robert McFadden and a friend went over to Long Beach this morning, spending the day at the seaside resort.

That any and all breakage of machinery in and about the factory during the campaign of 1910 shall be paid for by Case, Hinze & Company if the same shall occur on account of the faulty construction or operation. The same shall be determined by said committee upon expert opinions secured by it. That during the said campaign of 1910 said Case, Hinze & Company shall provide for the disposition of the beet pulp, lime waste and sewage from the factory so that the same shall not, through the odors arising therefrom or otherwise, become a nuisance, and thereby injure or damage property adjacent to the factory, along the right-of-way for drainage or in the city of Santa Ana. The cost thereof to be paid by the Southern California Sugar Company.

That said Case, Hinze & Company shall operate said plant for the campaign of 1910, with an average cost of fuel consumed per ton of beets cut and made into sugar not in excess of the amount of fuel consumed per ton of beets by other sugar factories in Southern California, using beets grown in Orange county, California, of like percentage of sugar; that said Case, Hinze & Company shall, if at the end of the campaign of 1910 said factory shall not be found to be of a capacity of six hundred (600) tons of sugar beets per day of twenty-four (24) hours, pay to the Southern California Sugar Company such sums of money as shall be determined by the committee herein provided, as the loss sustained by the Southern California Sugar Company from lack of operation of the sugar factory up to its capacity and in an economical manner for the campaign of 1909 and 1910.

The undersigned hereby agree that, on the acceptance by Case, Hinze & Company of the conditions herein, the same to be embodied in a written agreement between themselves and the Southern California Sugar Company, and ourselves, and the assignments of said shares of stock to said trustee with instructions the same as in said contract, and the compliance therewith by said Case, Hinze & Company and said sugar company, that the undersigned will provide a right-of-way for the disposition of the sewage or waste water from said sugar factory for the season of 1910.

Case, Hinze & Company having by printed communication to the stockholders asked for a square deal, and at the stockholders' meeting at which your committee was appointed they stated their willingness to make the factory according to contract if it was not so already, we submit this to you for their acceptance, in evidence of our intention to give them a square deal as far as the same lies with us, believing that this is a square deal for them, as well as for all other stockholders in the sugar company whether large or small.

OUR WASHINGTON LETTER

WASHINGTON, March 6.—The village gossips here have delivered the verdict. Neighbor Taft is a "gadabout." Not a mild "gadabout," who gads a little now and then, but a real, all-wool-and-a-yard-wide "gadabout," who is on the go all the time. And if you don't believe it look at the record.

The White House hearthstone has been singularly deserted since the Taft regime began. When he is not traveling outside of Washington, dinners, parties, balls, banquets, conventions, the theatre, social and business gatherings of all kinds, drag the presidential presence from the executive roof-tree, and the said presence seems not to be averse to being dragged away. On the contrary it seems to enjoy it.

Probably two-thirds of the "occasions" have demanded speeches, impromptu or otherwise. Several million words of public speaking have been turned out by the President in the last year. At least two nights a week, when he is in Washington, the President attends the theatre. Often he first takes in the play, and afterwards hurries away to some other function, a dinner, or dance. Is it strange that the luxuriant mustache that hides—or—reveals the famous Taft smile is growing gray?

Probably no other President ever put the physical effort into gadding about that Taft does. Certainly he holds the record for continuous performances. Three engagements in an evening with two speeches to deliver is no uncommon thing for him.

Besides all this, President Taft does a real day's work every day. He is up at 7 for a half hour's hard exercise with his physical trainer, who puts him through a strenuous course of "setting up" drills and shadow boxing.

before the day's business begins. From 9:30 until 2 he is at the executive offices, grinding out a grist of handshakes, and handling executive business and legislative callers. At 2 a short hour for luncheon and he is back on the job until six. From then until 7:30 he usually takes his daily walk, hurrying back to the White House for dinner, and to prepare for the strenuous evening, with its theater, dinners, and speeches.

All this is wearing down the avoirdupois of the executive, but the ones who are getting nervous prostration over it are the secret service men. To them the present program means work almost without end. Hundreds of petty details must be attended to every time the president goes to the theater or takes a walk, and it is up to the quiet complacent walking arsenal to do the work. Just now they are thinking fondly of the luxurious Roosevelt days, when hard work consisted of a 15 or 20 mile walk through a rain storm, or a 90 mile horseback trot, and it did not involve six nights a week of social functioning.

The State Department always knew that Thomas H. Norton was a versatile sort of a fellow. He was born in New York and educated in Ohio. That's one reason he was given the post of consul at Chemnitz, Saxony. But not until his last report came in did Secretary Knox fully realize Norton's capacity for research, or his powers of observation.

"Of late years there has been dissatisfaction over the liability of hose, especially the finer grades, to tear where the ordinary hose supporters are hooked or attached," says the consul to Chemnitz. "The complaints have increased as the old-

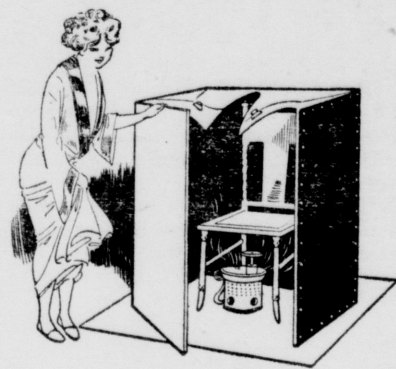

fashioned garter has been steadily discarded for the more modern and hygienic supporter. Two new styles of Chemnitz hose have appeared, warranted free from defect. In the first design an additional 'garter welt' is knitted about the top and forms a constituent part of the stocking, four inches below the customary welt. The additional cost per dozen pair is 12 cents.

"A second design presents two broad loops on opposite sides of a stocking, starting five inches below the top. They are one inch wide and an inch and a half long, formed during the operation of knitting, and constitute an integral part of the stocking. Supporters can easily be attached to these loops, but the results of wear cannot extend to the stocking proper. The addition costs 16 2-3 cents per dozen pairs of hose."

THE NEW SPRING FEVER TREATMENT

Best Spring Treatment Costing But a Few Cents Produces Astonishing Results

Robinson Druggess Treatment Proves Revelation in Treatment of Many Diseases

One Robinson Thermal or Turkish Bath for those of weakened vitality will do more good in a half hour as a spring medicine than can be expected from any drug in the world. Many startling results have been produced by the use of the Robinson Thermal Bath. It is revolutionizing the treatment of disease. Prominent physicians are abandoning drugs in many cases for this new treatment. Those who have tried them, are astonished at the change in their condition.

The intense exquisite feeling of happiness, strength and mental clearness which results are impossible to express in words.

Read this letter from Mr. Frank A. Thurston of New York and then judge for yourself.

I only regret that I have delayed this necessity and luxury so long. The cabinet is all you claim for it; a perserver and restorer to health. I use your cabinet with great satisfaction as it gives new life and vigor to the entire system. The feature of breathing pure air is a great advantage over the Turkish bath. Another feature is being able to take a bath in one's own home before retiring. I do not believe that any intelligent man or woman would live without the cabinet after giving it a thorough test.

Open up the pores and the change seems almost miraculous; nerves are strengthened at once, kidneys get well; eczema, pimples and skin diseases vanish; bad colds, lumbago, rheumatism, dyspepsia, throat and lung trouble, insomnia and constipation disappear as though some wonderful force had lifted them away.

Every man or woman can now have a Robinson Thermal Bath at home, at a cost of but a few cents, and without trouble.

The Robinson Thermal Bath Cabinets are now being exhibited, and are on sale in Santa Ana at the Rowley Drug Co. and in Tustin at Tustin Drug Store.

Ask the dealer also for that great book, "The Philosophy of Health and Beauty." The regular price is \$2.00, but you can get one free for a limited time.

Don't pass another day without seeing these cabinets. If you cannot go yourself, just send your name and address today to the ROBINSON MFG. CO., Suite 34, Snowflake Bldg., Toledo, Ohio, for full illustrated information free.

The Story of the Southern Pacific Railroad System and the Great Fortunes Created by It

By Charles Edward Russell

For the first time the *real history* of the powerful "Southern Pacific" organization is being told; how the whole state of California was throttled; how the United States Government at Washington was bribed and betrayed, and how the over-capitalization of our railroads is in a great degree responsible for our struggle to meet higher prices.

HAMPTON'S

APRIL ON SALE NOW

Mr. Russell's minute analysis of the careers of Collis P. Huntington, Leland Stanford, Charles Crocker and Mark Hopkins throws a strong searchlight upon American railroad methods; shows how the "ultimate consumer" has had a staggering burden of debt put upon his shoulders to increase his cost of living.

The purpose of this series is to show the American reader and voter specifically one phase of the great industrial and social problem which menaces him. Mr. Russell takes our most powerful railroad system and clearly tells us upon what iniquities its pre-eminence is founded.

There are a dozen other big articles and stories in the April HAMPTON'S which you will read and enjoy, including the first complete, adequate article ever printed on the Alaskan situation; and "Peary's Own Story."

LOS ANGELES PRODUCE MARKET

Potatoes slumped considerably yesterday morning on the local markets. The chief reason is the prevailing oversupply. They have been arriving in greater quantities than are being consumed, and the result is the lower prices. Local dealers are not likely to blame for the oversupply, so far as the northern potato jobs and growers are forcing the market in. They are shipping on commission largely and asking anything for their spuds will bring. It is estimated that the northern supply on hand will run between 250,000 and 300,000 sacks, which must be cleaned up by the end of May or the first week in June in order to allow the new potatoes an open market. New potatoes are coming in and yesterday's price dropped to \$1.75 per lug box about 7 cents a pound. It will be only two or three weeks before the first car of sacked potatoes will be on hand and that means a slackening of the call for old potatoes. Arrivals yesterday were 1470 sacks. Watson's potatoes dropped as low as \$1.25; Oregon to \$1.30; Idaho and White Rose to \$1.25; Oregon Rose to \$1.50.

The first eastern eggs on the market arrived in the morning. They had a good sale and the jobbing price was 25¢ a dozen, ¼¢ higher than had been expected. The eggs were sold at local quotations owing to the fact that local receipts were only 287 cases, the smallest of the month. Prices advanced as a result, the extra selected being at 31¢, and case-count selling 27¢.

Dairy extra butter was well sold for. The market on other grades was fair. Arrivals were 37,000 pounds. There was considerable bidding as high as 26 cents on creamery extra, but little was forthcoming at that figure, denoting the weakness of the market. Northern fresh cheese was down 1 cent on wholesale quotations, making the price to the trade in larger quantities at 17 cents. Eastern daisy is the best selling variety of the season. Receipts were 2398 pounds. The first Texas Bermuda onions of the season were received. They are offered at \$2.35. The first silverskins were also a feature on the onion market. They brought 25¢ per lug box. There were no changes in other onion quotations. The market was relieved of the onion existing for a few days for want of sufficient onions. Two cars of beans from the Ventura district were received, totaling 100 sacks. There was a very good sale for Lady Washingtons and smallites. Sweet potato arrivals were very small and prices steady. Lettuce was down to 25¢ a case on the best. Cauliflower was also more plentiful and rhubarb is most in oversupply. Asparagus is cleaned up well. Halibut continued a glut and barndale were more than plentiful. Other varieties just about filled the market. Shad and salmon were the

choice arrivals from the north.

KING EDWARD GROWS WORSE

Reports From Biarritz of Bad Health of King is Like a Bomb to London

LONDON, April 6.—Correspondents of several London papers at Biarritz threw a bomb into the city today by announcing that the optimistic bulletins concerning King Edward's health

which are issued by his physicians are not altogether true, and that King Edward is actually in a condition worthy of alarm. They say the Biarritz trip has not resulted in improvement, but that the king has steadily grown worse since his arrival. He is believed to be suffering from bronchial affection.

Cleanliness in Dairy Counts
Cleanliness in all lines of dairymaking counts for quality of products. After milk vessels have been washed with soap and hot water they must be finally rinsed with scalding water. When scalding water is used no drying with rags will be necessary, as the heat from the water will dry the vessels without aid. Sunning after cleaning is to be commended.

\$12,500 FOR THE PROPERTY

Board of Supervisors in Session Today Received Another Offer

The Board of Supervisors today received another offer of a site for a county hospital and poor farm. Ira J. Cree and T. Trythall offer the Fairview Hotel building, five cottages and twenty acres of land for \$12,500.

The petition of neighbors of Peter Berg of Anaheim asking that he be given no further allowance from the county for the care of children in his care, was granted this morning. The petition stated that one of the sisters in Berg's charge earns enough to support the two dependent children.

A map of Harper township, presented by the Orange County Title Co., was accepted.

The petition of J. O. Forster to close a road at San Juan Capistrano was granted.

J. M. Jameson and others petitioned for a new road from near Pollorino through the Berry tract.

A resolution was passed at the request of the directors of the Del Norte Drainage District, fixing widths, depths and location of ditches for that district.

A representative of several fisher-

men at Bay City came before the board and asked that the county's ordinance prohibiting the shipment of over twenty-five pounds of cockles per day be rescinded. The petitioner was referred to the district attorney.

J. C. Joplin, representing the Beekeepers' Club, appeared before the board and made two requests, both of which were granted. One was for permission to use some big exhibition bottles for preparing honey exhibits for the Carnival of Products. The other was that the county pay part of Bee Inspector Pleasant's expenses on a trip to the San Joaquin valley gathering information concerning the European foul brood.

C. R. Ward bought the county gravel pit on East Seventeenth street for \$1100. There is about eight acres in the piece. It was ordered that the law library be moved from the room it has been in, now used by the district attorney, to the witness room of the Superior court.

The school superintendent was granted permission to expend not over \$60 for diplomas.

The treasurer was authorized to exchange his adding machine for a new one.

A Twister

The little girl was starting to join her mother, who was visiting friends in a neighboring city. "Tell mamma," said her father, as he put her on the train and kissed her goodbye, "that I am taking good care of the flowers in the back yard."

"And be sure to tell her that the golden-glow is growing gloriously."

"I'll remember, papa."

The train moved off and she was gone. An hour or two later she delivered the message.

"Mamma," she said, "papa told me to tell you that he was taking good care of the flowers."

"I am glad to hear it, dear."

"And I was to be sure to tell you that the golden-glow is growing—no, the golden-glow is going—I mean, the gory-glow is going—mamma, what is the name of that big yellow flower that grows in the back yard?"

"The golden-glow, dear."

"Well, he says it's doing first-rate."

Influence of Environment

The parrot which belonged to the rich malefactor sat in its gilded cage, contemplating a price mark which had not yet been removed. Presently the magnate approached, and the bird looked at him. He had been on the witness stand that day in an important case, and was feeling rather elated over his successful testimony.

"Hello, Polly!" he greeted the bird, sticking his finger through the bars.

"Hello!" responded the parrot, ignoring the finger.

"Does Polly want a cracker?"

The bird cocked its head to one side inquiringly. The magnate laughed at its manner. Possibly the bird had not quite understood the question.

"Does Polly want a cracker?" he repeated.

The bird looked at him with slanted vision, but made no reply.

"Oho!" he laughed. "You're not hungry. Have you had your dinner?"

"I don't remember," croaked the bird, and the magnate ordered the butler to remove it from the premises forthwith.—W. J. Lampton in Lippincott's.

His Air Tight Compartment

The passenger who was crossing the Atlantic for the first time timidly approached the pompous purser.

"Is it true, sir," he said, "that this whole ship is divided into air tight compartments?"

"True as gospel," replied the pursuer in surprise.

"Then," remarked the passenger gloomily, "I guess I'll have to put up with the one I'm occupying if I can't better myself."

And the Pardon Passed On

"And what are you here for, my friend?" asked the visiting parson of an inmate of a reformatory.

"Cause I can't get out, thank you," replied the victim.—Ladies' Home Journal.

The Conversationalist (to well-known authoress)—I am delighted to meet you—it was only the other day—I saw something of yours—about something or other—in some paper!—Sketch.

ANOTHER SUIT AGAINST HIM

Udpike is Fifth Anaheim Man to Allege Martens Got Land on Fraud

Another victim of the frauds of Henry J. Martens has begun suit in the Superior court of this county. The difference between this suit, in which J. L. Udpike is plaintiff, and the other suits, is that the property has passed to another party, who doubtless will declare he bought as an innocent party.

The defendants named are Henry J. Martens and his wife, Liese Martens, Henry Hodel and L. A. Evans. As in the other four suits brought in this county, Anaheim ranch property was deeded to Martens in trade for Kern county land, to which, it is since shown, Martens had no title. Martens then deeded to another.

Udpike asserts that he deeded ten acres in return for a worthless deed to 160 acres in Kern county. Udpike has since been ousted from the Kern county land. The trade was made March 27, 1909. The complaint alleges that last October Martens conspired with Henry Hodel, and deeded the Anaheim ranch acres to Hodel. Later Evans received a deed to this ten acres from Hodel. Udpike asserts that Evans knew of the situation and that Udpike claimed an interest in the land.

The court is asked to rescind all deeds and restore Udpike to the possession of the ten acres. Martens is now in Hillsboro, Kas. He is wanted in Bakersfield for fraud, but extradition has failed.

Our Window Display of Japanese Air Plants is worth seeing

The Japanese Air Plant is one of the most wonderful of plants. Everybody has read or heard of how the Japanese raise these plants—how they were sustained in their growing entirely by the atmosphere—how they were stopped in their growth while small—and how now they keep fresh and bright and green and require no attention whatever—nothing but air.

See these wonderful plants and if you want to take one home with you we will sell you the small size for 15c. The larger size which are in bloom are 25c.
